Buses in Crozet?

I'm new to the area and work from home or travel for work. I'd be interested to know how many people in Crozet actually commute into Cville every morning for work. I would assume the concentration of that number would be in the dense neighborhoods like Old Trail (obviously)...but the only way it could work is if whomever starts the line has a real chance at filling those buses each day AND is picking up and dropping off where most people are/need to go. Beyond that, how many people are working in the downtown area vs. out of 29 or beyond in the County. Lots of interesting questions....

[@realcrozetva](#) business op? Could start with fri/sat evening runs. 6/7p rides in, 9/10/11p rides back. Weekday - stops at hospitals, CFA?

Did Crozet ever have train service from here to Charlottesville?

A commuter bus to/from Charlottesville would be fantastic. Definitely need the bike rack.

Any civilized region has a public transit system. We are just not that civilized in Virginia. Not anymore.

Real [RealCrozetVA](#)

Did you see Phil's comment above? Crozet used to have commuter rail.

Certainly, Jim. Whenever it has the Secrets of the Blue Ridge watermark, it's available to share. (Enjoy the "full version" of this wonderful image on the wall behind the desk at Crozet Library.)
